Professional summary

Experienced software professional with over 4 years of expertise in Native and Cross-Platform App Development, React Frontend Development, and .NET Backend Development. Proficient in end-to-end development and UI design while consistently prioritizing customer satisfaction and adherence to deadlines. Strong leadership qualities facilitate effective project and team management, fostering collaboration and innovation to drive successful outcomes. Committed to delivering high-quality solutions that meet client needs and industry standards.

Work history

Ascension Sources – Remote

May 2023 – Current

Sr .NET Developer/Tech Lead – ProBuy, June 2024 – Current

- Developed a fintech platform for SMEs with **40 Micro-Services**, **4 React Portals** and **2 Websites**.
- Led and managed a team of 6 people.
- Integrated micro-services architecture using **.NET Aspire Orchestration**.
- Integrated with third-party KYC and government services like **Spare**, **Lean**, **Wathq (MOC)** and **Elm** (Absher OTP Service).
- Implemented and Integrated third-party auth services like **OAuth2** and **Keycloak**.
- Implemented API caching using **Redis** and integrated event driven **RabbitMQ** messaging service.
- Developed **CI/CD** pipelines to ensure build quality and standardized deployment into multiple environments.
- Collaborated with clients to handle issues and resolve them.
- Coordinated with cross-department teams like QA, DevOps, and Support to ensure seamless end-to-end software delivery process.
- Optimized resource allocation for projects, ensuring optimal use of team skills and minimizing project costs.

.NET Developer – BusinessCode, May 2023 – June 2024

- **Solely responsible** for the development and delivery of the end-to-end product.
- Developed a Xamarin Forms application for **Android and iOS**.
- Migrated the same apps to MAUI.
- Integrated hardware APIs, like **NFC** and **QR Scanner**, in both Android and iOS platforms.
- Integrated third-party tools like **Syncfusion** and **Telerik** for custom controls.
- Integrated **Dynamic Links**, **Firebase**, and **Branch.io** for handling app links to boost app store conversions.
- Implemented **Apple Pass** for saving e-business cards.
- Developed a native Android application with the **instant app** feature.
- Developed a native iOS application with the **App Clip** feature.
- Handled codebase migration from **.NET 8** to **.NET 9**.
- Contributed to the successful completion of projects by meeting deadlines and adhering to best practices in .NET development.
- Monitored database performance to keep workflows running smoothly.
- **Currently, I am overseeing only production issues and resolving them.**

Application Engineer

- Was **solely responsible** for the development and delivery of the end-to-end product.
- Developed **Xamarin Native** applications (LeadRat Green) for Android and iOS.
- Developed a **Xamarin Forms** application (LeadRat) for Android and iOS.
- Migrated the same mobile apps to .NET MAUI.
- Integrated **Cashfree, RazorPay, and Apple Pay** payments into both applications for Android and iOS platforms.
- Implemented industry-standard coding practices and design principles.
- Worked on **mobile APIs** for the same applications.
- Trained and managed a team of 5 people.
- Exhibited strong technical aptitude and application expertise resulting in optimized performance, continuous improvement recommendations and product innovation.
- Played a crucial role in successful project completion by contributing technical expertise at all stages of development.

Freelancing – Remote

April 2021 – Sept 2021

Freelancer Software Developer

- Developed **10+ single-page** applications for clients.
- Developed **2 eCommerce applications** for small restaurants near my hometown.
- Developed **2 sales tracking applications** for various NGOs.
- Developed **backend APIs for a student management portal** catered to local Indian boarding schools.

Skills

- C#, ASP .NET, Xamarin Forms, Xamarin Native, MAUI, Blazor, Aspire
- HTML, CSS, Javascript, React, Typescript
- SQL, PostgreSQL, Azure Cosmos, Redis Cache, SQLite
- Keycloak, OAuth,
- Git, GitHub, GitHub Actions
- Java, Swift, Kotlin, Flutter, Objective-C, Xcode
- Leadership, Decision Making, Communication

Area of Expertise

- Cross-Platform Mobile App Development
- Full Stack Application Development using .NET technology
- Team Leadership

Key Achievements

- Led multiple teams of more than 5 people to successful project completion within deadlines.
- Increased app performance by 70% through API caching.
- Payment Integration Achievement: Integrated 3 payment methods in mobile applications.
- App Migration Success: Migrated 5 mobile apps to .NET MAUI successfully.
- Solo-Developed entire projects (Cross-Platform App, Websites, Backend APIs), from concept to product.

- Coordinated with Saudi Government Service providers like Wathq, Elm (Absher) and successfully integrated them into projects
